SOLA Run-Time Messages

The messages in this topic pertain to the SOLA run-time. Each message is followed by an explanation describing the condition that caused the message, a programmer response suggesting how you might prevent the message from occurring again, and a system action indicating how the system responds to the condition that caused the message. The messages in this topic contain alphabetic suffixes that have the following meaning:

- I** Informational message
- W** Warning message
- E** Error message
- S** Severe error message
- C** Critical error message

SOAA101W:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> The
Second getmain failed in XMLPC409. EIBRESP = <EIBRESP>/<External-msg>`
Source: Analyzer, CICS GetMain Error, low severity (Warning)
Explanation:
Response:
Action: None

SOAA104W:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
during map load . EIBRESP = <EIBRESP>/<External-msg>`
Source: Sola Analyzer, CICS Load Error, low severity (warning)
Explanation:
Response:
Action: None

SOAA119W:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
during post . EIBRESP = <EIBRESP>/<External-msg>`
Source: Sola Analyzer, CICS Post error, low severity (warning)
Explanation:
Response:
Action: None

SOAA120W:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
during wait . EIBRESP = <EIBRESP>/<External-msg>`
Source: Sola Analyzer, CICS Wait error, low severity (warning)
Explanation:
Response:

Action: None

SOAA599E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code: -40004 Error reading output TSQ/<External-msg>

Source: SOLA Analyzer, Process Error, medium severity

Explanation:

Response:

Action: None

SOAA601E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-40003 XML Attribute NAME not Understood/<External-msg>

Source: SOLA Analyzer, Client Error, medium severity

Explanation:

Response:

Action: None

SOAC101S:

<program>-<location> Tor:<TorName> Task:<TaskNr> Code: <EIBRESP> Error During Freemain <Prog>. EIBRESP = <EIBRESP>/<External-msg>

Source: CICS FreeMain Error, high severity (system error)

Explanation: SOLA programs are not able to free the memory area acquired earlier using GETMAIN.

Response: None

Action: Contact SOLA Support

SOAC103S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error linking the CICS program - <ProgName> EIBRESP = <EIBRESP>/<External-Msg>

Source: Commarea Plugin, CICS Link Error, high severity (system error)

Explanation:

Response:

Action: None

SOAC103W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error linking the CICS program - <ProgName> EIBRESP = <EIBRESP>/<External-Msg>

Source: Commarea Plugin, CICS Link Error, low severity (Warning)

Explanation:

Response:
Action: None

SOAC108E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> CICS
Getmain failure <EIBRESP>/<External-msg>
Source: Commarea Plugin, CICS Assignment Error, medium severity
Explanation:
Response:
Action: None

SOAC108S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> CICS
Link failure <EIBRESP>/<External-msg>
Source: Commarea Plugin, CICS Assignment Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAC110E:

<program>-<location> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP>
ERROR READING OUTPUT TSQ/<External-msg>
Source: BMS3270 Plugin, CICS Read Queue Error, low severity
Explanation: BMS3270 plugin of SOLA that is using start bridge has not received any output
send map from the user program
Response: The BMS3270 Plugin can't return the requested output soap response.
Action: Please check with the application programmer to see why the output was not
sent from the application program

SOAC116S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
Inserting Document, RESP = <EIBRESP>/<External-msg>
Source: Commarea Plugin, CICS Doc Create Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAC119E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
during post request/ <External-msg>
Source: BMS3270 Analysis, CICS POST Error, low severity

Explanation: BMS3270 plugin of SOLA that is using start bridge during analysis uses post-wait technique to synchronize with user transaction and is not able to post the ECB.
Response: SOLA BMS 3270 plugin can't continue further execution.
Action: Contact CICS System programmer to see if CICS Setup allows two transactions to share and update each others memory area. This is needed for SOLA to continue a 3270 transaction using start bridge facility.

SOAC120E:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error during wait event/ <External-msg>`
Source: BMS3270 Plug-in, CICS Wait error, medium severity
Explanation: BMS3270 plugin of SOLA that is using "start bridge" facility during analysis uses post-wait technique to synchronize with user transaction and has received error during wait event.
Response: SOLA BMS 3270 plugin can't continue further execution.
Action: Check with the CICS administrator or Contact SOLA support.

SOAC208E:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<SQLCODE> ERROR INSERTING V1XMLOFT IN <Prog>. SQLCODE = <SQLCode>/<External-msg>`
Source: DB2 Set Error, medium severity
Explanation:
Response:
Action: None

SOAC299S:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<SQLCode> <Internal Return-Msg>/<External-msg>`
Source: Commarea plugin, General DB2 Error, high severity (system error)
Explanation:
Response:
Action: None

SOAC505S:

`<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal Return-Msg>/<External-msg>`
Source: Commarea Plugin, Install Restriction, high severity (System Error)
Explanation:
Response:
Action: None

SOAC599E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-49903 3270
command not supported - FN - <OutputVectorDesc> Details -
<OutputFields>/<External-msg>

Source: BMS3270 Plugin, Process Error, medium severity

Explanation: BMS 3270 Plugin encountered a 3270 command during execution that is not currently supported.

Response: Execution can't continue further.

Action: Verify the input data and see if application logic followed the current execution path.

SOAC599S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<SQLCode> <Internal
Return-Msg>/<External-msg>

Source: Commarea Plugin, Process Error, high severity (System Error)

Explanation:

Response:

Action: None

SOAC599W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00101 Method not
found in Template/<External-msg>

Source: Commarea Driver, Process Error, low severity (Warning)

Explanation:

Response:

Action: None

SOAC601E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00105 Request
rejected/<External-msg>

Source: Commarea Plugin, Client Error, medium severity

Explanation:

Response:

Action: None

SOAC601W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00105 <Internal
SOAP-Error-Msg>/<External-msg>

Source: Commarea Plugin, Client Error, low severity (Warning)

Explanation:

Response:

Action: None

SOAC701E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-49903 Map
<MapName> is beyond the 10 map limit/<External-msg>

Source: BMS 3270 Plugin, Custom Fault, medium severity

Explanation: BMS 3270 plugin has restriction to handle up to maximum 10 unique
map/mapsets during one web services operation. This limit has been reached.

Response: Execution can't continue further.

Action: Verify if the use-case for creating web services can be restricted in such a way
that less than 10 unique maps are encountered during a single execution path.

SOAC999E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal
Abend-Msg>/<External-msg>

Source: Commarea Plugin, Program Abend, medium severity

Explanation:

Response:

Action: None

SOAC999S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal
Return-Msg>/<External-msg>

Source: Commarea Plugin, Program Abend, high severity (System Error)

Explanation:

Response:

Action: None

SOAD599E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> No SQL
provided/<External-msg>

Source: DOM API, Process Error, medium severity

Explanation:

Response:

Action: None

SOAE000I:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00006 Inbound
request refused by Host/<External-msg>

Source: Security User Exit, ????, very low (Information)

Explanation:

Response:

Action: None

SOAE000W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00007 <Internal-
Msg>/Inbound request refused by Host
Source: Security User Exit, ????, low severity (Warning)
Explanation:
Response:
Action: None

SOAE299S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<SQLCODE>
<Internal-Msg>/Inbound request refused by Host
Source: Security User Exit, General DB2 Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAE999S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<UE-ABEND-CD>
<UE-Internal-Msg>/<External-msg>
Source: Security User Exit, Program Abend, high severity (System Error)
Explanation:
Response:
Action: None

SOAG101E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> CICS
Getmain failed (1) <EIBRESP Msg>/<External-msg>
Source: 3270 Plugin, CICS GetMain Error, medium severity
Explanation:
Response:
Action: None

SOAG104E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
loading template data - <Mapname> EIBRESP CODE = <EIBRESP>/<External-
msg>
Source: 3270 Plugin, CICS Load Error, medium severity
Explanation:
Response:
Action: None

SOAG108E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> CICS
Assign Sysid failure

Source: 3270 Plugin, CICS Assignment Error, medium severity

Explanation:

Response:

Action: None

SOAG108S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> CICS
Link failure <EIBRESP Msg>/<External-msg>

Source: 3270 Plugin, CICS Assignment Error, high severity (System Error)

Explanation:

Response:

Action: None

SOAG110E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> ERROR
READING OUTPUT TSQ/<External-msg>

Source: 3270 Plugin, CICS Read Queue Error, medium severity

Explanation:

Response:

Action: None

SOAG119E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
during post request/<External-msg>

Source: 3270 Plugin, CICS Post, medium severity

Explanation:

Response:

Action: None

SOAG120E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
during wait event/<External-msg>

Source: 3270 Plugin, CICS Wait, medium severity

Explanation:

Response:

Action: None

SOAG599E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-49901 <Internal
ABEND-Msg>/<External-msg>

Source: 3270 Plugin, Process Error, medium severity

Explanation:

Response:

Action: None

SOAG701E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-49902 NO OUTPUT
RECEIVED/<External-msg>

Source: 3270 Plugin, Custom Fault, medium severity

Explanation:

Response:

Action: None

SOAG999E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal
Abend-Msg>/<External-msg>

Source: 3270 Plugin, Program Abend, medium severity

Explanation:

Response:

Action: None

SOAL101E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Getmain
Failed in XMLPC001. EIBRESP = <EIBRESP>/<External-msg>

Source: Callable API plugin, CICS GetMain Error, medium severity

Explanation:

Response:

Action: None

SOAL108E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> CICS
Assign Sysid failure/<External-msg>

Source: Callable API plugin, CICS Assignment Error, medium severity

Explanation:

Response:

Action: None

SOAL299E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<SQLCODE> Error inserting parameter in XMLPC205, SQLCODE = <SQLCODE>/<External-msg>

Source: Callable API plugin, General DB2 Error, medium severity

Explanation:

Response:

Action: None

SOAL999E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal Abend-Msg>/<External-msg>

Source: Callable API plugin, Program Abend, medium severity

Explanation:

Response:

Action: None

SOAO402S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code: <Conv Rc> Error converting data for: <Fields>/<External-msg>

Source: Data Conversion Utility, Conversion Error, high severity (System Error)

Explanation:

Response:

Action: None

SOAO402S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code: <Conv Rc> STORAGE VOILATION - PC02: <Fields>/<External-msg>

Source: Data Conversion Utility, Conversion Error, high severity (System Error)

Explanation:

Response:

Action: None

SOAP401E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> <Internal DOM-msg>/<External-msg>

Source: DOM Parser, DOM Parser Error, medium severity

Explanation:

Response:

Action: None

SOAP401S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<RetCode> Error parsing Soap request, parser return code =<RetCode>/<External-Msg>

Source: DOM Parser, DOM Parser Error, high severity (System Error)

Explanation:

Response:

Action: None

SOAQ110E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> Error reading GOV Queue, EIBRESP = <EIBRESP>/<External-msg>

Source: SQL Plugin, CICS Read Queue Error, medium severity

Explanation:

Response:

Action: None

SOAQ201E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> Error opening cursor, SQLCODE = <SQLcode>/<External-msg>

Source: SQL Plugin, DB2 Open Cursor Error, medium severity

Explanation:

Response:

Action: None

SOAQ203E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> Error fetching cursor, SQLCODE = <SQLcode>/<External-msg>

Source: SQL Plugin, DB2 Fetch Error, medium severity

Explanation:

Response:

Action: None

SOAQ208E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:SQLCODE Error setting current SQLID, SQLCODE = <SQLCode>/<External-msg>

Source: SQL Plugin, DB2 Set Error, medium severity

Explanation:

Response:

Action: None

SOAQ299E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> Error preparing SQL, SQLCODE = <SQLcode>/<External-msg>
Source: SQL Plugin, General DB2 Error, medium severity
Explanation:
Response:
Action: None

SOAQ599E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> UserId contained a blank character/<External-msg>
Source: SQL Plugin, Process Error, medium severity
Explanation:
Response:
Action: None

SOAQ701E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<DOM Rc> Must provide valid User Id/<External-msg>
Source: SQL Plugin, Custom Fault, medium severity
Explanation:
Response:
Action: None

SOAQ999E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-999 Abend in XMLPC251, ABCODE = <Abendcode>/<External-msg>
Source: SQL Plugin, Program Abend, medium severity
Explanation:
Response:
Action: None

SOAR301E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<BridgeRC> Error from linkable bridge. BRIH CODE = <EIBRESP> Abend Code - <AbCode> <EIBRESP Text>/<External-msg>
Source: Linkable Bridge, Linkable Bridge Error, medium severity
Explanation:
Response:
Action: None

SOAS101S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Getmain Failed in XMLPC000 EIBRESP = <EIBRESP>/<External-Msg>
Source: SOLA Driver, CICS GetMain Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAS103S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> <Link Error>/<External-msg>
Source: SOLA Driver, CICS Link Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAS104W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00008 Method disabled/Error loading SOLA template metadata
Source: SOLA Driver, CICS Load Error, low severity (Warning)
Explanation:
Response:
Action: None

SOAS105S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Extract of IP Address failed/<External-msg>
Source: SOLA Driver, CICS Extraction Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAS110S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Cant read defaults/<External-msg>
Source: SOLA Driver, CICS Read Queue Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAS117W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP>
Requested Prog doesnt exist EIBRESP = <EIBRESP>/<External-Msg>
Source: SOLA Driver, CICS Document Insert Error, low severity (Warning)
Explanation:
Response:
Action: None

SOAS199E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error
reading defaults queue/<External-msg>
Source: SOLA Driver, General CICS Error, medium severity
Explanation:
Response:
Action: None

SOAS299S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<SQLCODE>
<Internal-Msg>/<External-msg>
Source: SOLA Driver, General DB2 Error, high severity (System Error)
Explanation:
Response:
Action: None

SOAS504W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00005 Inbound
request refused by Host/<External-msg>
Source: SOLA Driver, Policy Not Found, low severity (Warning)
Explanation:
Response:
Action: None

SOAS505S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal-
Msg>/<External-msg>
Source: SOLA Driver, Install Restriction, high severity (System Error)
Explanation:
Response:
Action: None

SOAS599S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00015 <Internal REST-MSG>/<External-msg>

Source: SOLA Driver, Process Error, high severity (System Error)

Explanation:

Response:

Action: None

SOAS601W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:-00004 Invalid namespace specification(5)/<External-msg>

Source: SOLA Driver, Client Error, low severity (Warning)

Explanation:

Response:

Action: None

SOAS999E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal Abend-Msg>/<External-msg>

Source: SOLA Driver, Program Abend, medium severity

Explanation:

Response:

Action: None

SOAS999S:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<Abend-cd> <Internal-Msg>/<External-msg>

Source: SOLA Driver, Program Abend, high severity (System Error)

Explanation:

Response:

Action: None

SOAU101E:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Getmain Failed in XMLPC200. EIBRESP = <rc>/<External-msg>

Source: Custom Program Plugin, CICS GetMain Error, medium severity

Explanation:

Response:

Action: None

SOAU103W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Error linking the CICS program - <ProgName> EIBRESP <EIBRESP>/<External-msg>
Source: Custom Program Plugin, CICS Link Error, low severity (Warning)
Explanation:
Response:
Action: None

SOAU104W:

<program>-<para> Tor:<TorName> Task:<TaskNr> Code:<EIBRESP> Abend <ABcode> encountered while processing request, abend trapped in XMLPC200 paragraph <Paranum>/<External-msg>
Source: Custom Program Plugin, CICS Load Error, low severity (Warning)

SOLA001I:

<param>=<value>
Source: SOLA Started Task
Explanation: At startup SOLA, accesses its startup parameters from the PARMLIB. This message echoes the PARMLIB settings to SYSOUT
Response:
Action: None

SOLA002I:

<message text>

Source: SOLA Started Task
Explanation: This is a trace message. This message may appear when the trace level is 8 or higher.
Response:
Action: None

SOLA003I:

Source: SOLA is ready to accept requests
Source: SOLA Started Task
Explanation: This is an information message indicating SOLA is ready for work
Response:
Action: None

SOLA004I:

Source: Waiting for Requests
Source: SOLA Started Task
Explanation: An informational message that only appears when the trace level is set to 8 or higher. Used by SOLA engineers for diagnostic purposes
Response:
Action: None

SOLA005I:

Source: About to attach
Source: SOLA Started Task
Explanation: An informational message that only appears when the trace level is set to 8 or higher. Used by SOLA engineers for diagnostic purposes
Response:
Action: None

SOLA006I:

Source: About to wait
Source: SOLA Started Task
Explanation: An informational message that only appears when the trace level is set to 8 or higher. Used by SOLA engineers for diagnostic purposes
Response:
Action: None

SOLA007I:

Source: Socket given about to close
Source: SOLA Started Task
Explanation: An informational message that only appears when the trace level is set to 8 or higher. Used by SOLA engineers for diagnostic purposes

Response:
Action: None

SOLA008I:

Source: Terminating SOLA
SOLA Started Task
Explanation: An operator or administrator has request termination of SOLA. SOLA is terminating.
Response:
Action: None

SOLA009I:

Source: Detached all subtasks
SOLA Started Task
Explanation: An informational message that only appears when the trace level is set to 1 or higher. Used by SOLA engineers for diagnostic purposes
Response:
Action: None

SOLA010I:

Source: Done attaching
SOLA Started Task
Explanation: An informational message that only appears when the trace level is set to 1 or higher. Used by SOLA engineers for diagnostic purposes
Response:
Action: None

SOLA011I:

Source: Default 200 Max threads assumed
SOLA Started Task
Explanation: The MAXT parameter specifies thread that is either zero or not parsable
Response:
Action: SOLA assumes a MAXT value of 200. If this is sufficient no further action is needed

SOLA031E:

Source: <jobname> is already active, Terminating
SOLA Started Task
Explanation: There already one started task running with the same name. Only one job can run with the same name
Response:
Action: Verify the job name is not already active and resubmit if needed

SOLA032E:

Unable to open SOLALIB
Source: SOLA Started Task
Explanation: SOLA is unable to open the file allocated to DD statement SOLALIB
Response:
Action: Check the JCL for the SOLALIB DD statement, and make sure that the dataset specified is available. Restart SOLA after correcting the problem.

SOLA033E:

Failed to obtain storage for FCT
Source: SOLA Started Task
Explanation: SOLA was not able to obtain storage needed for its own internal use.
Response:
Action: Check the region size on the job card and restart SOLA

SOLA034E:

Failed to obtain storage for TCB
Source: SOLA Started Task
Explanation: SOLA wasn't able to obtain storage needed for its own internal use.
Response:
Action: Check the region size on the job card and restart SOLA

SOLA035E:

Protected threads > Max Thread
Source: SOLA Started Task
Explanation: The number of protected threads specified (PROT=nnn) is greater than the number of total threads specified (MAXT=nnn)
Response:
Action: Reduce the PROT parameter or increase the MAXT parameter in the parmlib and restart SOLA

SOLA036E:

Max threads cannot be zero
Source: SOLA Started Task
Explanation: THE MAXT parameter specifies a number that is either zero or not parsable
Response:
Action: SOLA assumes a MAXT value of 200. If this is sufficient no further action is needed

SOLA037E:

Error during <socket API> RC=<value> E#=<value>
Source: SOLA Started Task
Explanation: An error message indicating TCPIP Error during a socket call.
Response:
Action: Consult TCPIP Error message guide or contact SOLA support

SOLA038E:

Error attaching
Source: SOLA Started Task
Explanation: This is an error message that indicates that SOLA is unable to attach a thread.
Response:
Action: Restart SOLA

SOLA051E:

Error <MsgNo> in calling CEEMRCE in recursive abend
Source: SOLA Started Task
Explanation: SOLA's condition handler has been called to handle an abend while abend processing is already active. In attempting to transfer processing to the head of the recovery stack, condition <MsgNo> was raised when calling CEEMRCE. SOLA promotes the abend to
Response:
Action: None

SOLA052E:

Error <MsgNo> in calling CEEMRCE, popping stack
Source: SOLA Started Task
Explanation: SOLA's condition handler has been called to handle an abend. In attempting to transfer processing to the active recovery routine, condition <MsgNo> was raised by CEEMRCE. XMLPC999 will attempt to transfer processing to the head of the recovery stack.
Response:
Action: None

SOLA053E:

Error <MsgNo> in calling CEEMRCE, promoting abend
Source: SOLA Started Task
Explanation: SOLA's condition handler encountered <MsgNo> when attempting to recover from error SOLA052E. XMLPC999 will promote the abend to Language Environment.
Response:
Action: None

SOLA100E:

Unsupported Modify Command
Source: SOLA Started Task
Explanation: Console Command is not supported.
Response:
Action: Use "F <jobname>," to get the list of allowable commands

SOLA100I:

Operator Thread Started for <sysid>
Source: SOLA Started Task
Explanation: Indicates that operator thread has been started successfully
Response:
Action: None

SOLA101E:

Thread seq too high
Source: SOLA Started Task
Explanation: A command was received to terminate a thread, but number of available threads is less than the thread that needs to be terminated.
Response:
Action: Use "F <jobname>,DISP" command to indentify the correct thread, then reissue the command

SOLA101I:

SOLA listener shutting down
Source: SOLA Started Task
Explanation: Indicates acknowledgement of a stop SOLA command
Response:
Action: None

SOLA102I:

Received terminate thread command <nnn>
Source: SOLA Started Task
Explanation: In informational message acknowledging receipt of a terminate thread command
Response:
Action: None

SOLA103I:

Starting stats thread
Source: SOLA Started Task
Explanation: Indicates acknowledgement of a statistics thread start command
Response:

Action: None

SOLA104I:

SOLA trace started
Source: SOLA Started Task
Explanation: Indicates acknowledgement of a start trace command
Response:
Action: None

SOLA105I:

SOLA Thread
Source: SOLA Started Task
Explanation: Header for the thread listing
Response:
Action: None

SOLA106I:

SOLA trace turned off
Source: SOLA Started Task
Explanation: Indicates acknowledgement of a stop trace command
Response:
Action: None

SOLA107I:

<command syntax>
Source: SOLA Started Task
Explanation: Informational message listing allowable operator of commands
Response:
Action: None

SOLA201I:

<message text>
Source: SOLA Started Task
Explanation: This is a generic trace message issued by program XMLPC122, the SOLA metrics logger.
Response:
Action: None

SOLA202E:

XMLPC122 CEETEST(call) failed with msg <MsgNo>
Source: SOLA Started Task

Explanation: XMLPC122 failed to connect to the IBM Debug tool

Response:

Action: This message is also written to the operator's console. This is an internal message. No customer action required

SOLA203S:

XMLPC122 Terminating. Error <CEEMsgNbr> registering condition handler XMLPC999

Source: SOLA Started Task

Explanation: This message is also written to the operator's console. SOLA received an LE error when attempting to register the SOLA condition handler program XMLPC999.

Response:

Action: Identify the cause of the LE error by looking up <CEEMsgNbr> in the Language Environment Run-Time Messages manual, SA22-7566. If unable to resolve the error then contact SOLA Support.

SOLA204E:

XMLPC122 Error on Start Browse. EIBRESP = <eibresp>

Source: SOLA Started Task

Explanation: XMLPC122 received an error when attempting to Start Browse on the SOLA UMT.

Response:

Action: Contact SOLA Support

SOLA205E:

XMLPC122 Error on Read Next. EIBRESP = <eibresp>

Source: SOLA Started Task

Explanation: XMLPC122 received an error when attempting to Read Next on the SOLA UMT.

Response:

Action: This message is also written to the operator's console. Contact SOLA Support

SOLA206E:

XMLPC122 Error inserting V1XMLMON, sqlcode = <sqlcode>

Source: SOLA Started Task

Explanation: XMLPC122 received an error when attempting to insert into the SOLA Metrics DB2 table <qualifier>.TBXMLMON.

Response:

Action: This message is also written to the operator's console. Contact your DB2 DBA.

SOLA207S:

XMLPC122 terminating. Percolated abend handled

Source: SOLA Started Task
Explanation: XMLPC122's condition handler has been called to handle an abend in a called program.
Response:
Action: This message is also written to the operator's console. XMLPC122, the SOLA metrics logger has stopped. Check the system log for messages, and correct the problem before restarting the metrics logger. The logger can be restarted with the F <jobname>,STA

SOLA208W:

Source: XMLPC122 Error in call to XMCLPC085 <ErrorMsg>
SOLA Started Task
Explanation: XMLPC085, the SOLA Policy Queue manager, returned an error <ErrorMsg>. XMLPC122 will continue.
Response:
Action: SOLA208W is accompanied by message SOLA209E. Check the value of <ErrorMsg> to determine your course of action.

SOLA209E:

Source: XMLPC122 Error on CALL XMLPC085 EIBRESP = <eibresp>
SOLA Started Task
Explanation: XMLPC122 reports an error calling XMLPC085.
Response:
Action: SOLA209E is accompanied by message SOLA208WE. Check the value if <ErrorMsg> from SOLA208W to determine your course of action.

SOLA210S:

Source: XMLPC122 Abended. Check job output for dump and resolve issue before restart'
SOLA Started Task
Explanation: This message is issued by XMLPC122's abend handler routine, which has received control from SOLA's condition handler XMLPC999.
Response:
Action: This message is also written to the operator's console. XMLPC122 terminates. Check previous errors for diagnostic information, and resolve the problem before restarting the logger with the F <jobname>,START,STATS operator command

SOLA301S:

Source: Task=<TaskNr> : LE Error <CEEMsgNbr> Registering Condition Handler XMLPC999
SOLA Started Task
Explanation: SOLA received an LE error when attempting to register the SOLA condition handler program XMLPC999.
Response:

Action: Identify the cause of the LE error by looking up <CEEMsgNbr> in the Language Environment Run-Time Messages manual, SA22-7566. If unable to resolve the error then contact SOLA Support.

SOLA302S:

Task=<TaskNr> : Take Socket Failed; TCP Socket ERRNO=<Errno>
Source: SOLA Started Task
Explanation: SOLA's TCPIP socket handler received a TCPIP error on a Take Socket command.
Response:
Action: TCPIP Error. Refer to the Communications Server IP Sockets Application Programming Interface Guide and Reference, SC31-8788 for explanation of <Errno>.

SOLA303S:

Task=<TaskNr> : TCP Read Failed, ERRNO=<Errno>
Source: SOLA Started Task
Explanation: SOLA's TCPIP socket handler received a TCPIP error on a Read command.
Response:
Action: TCPIP Error. Refer to the Communications Server IP Sockets Application Programming Interface Guide and Reference, SC31-8788 for explanation of <Errno>.

SOLA304S:

Task=<TaskNr> : TCP Read Failed, Client Closed Connection
Source: SOLA Started Task
Explanation: The client closed the connection while SOLA was trying to read from the socket.
Response:
Action: Correct the client application.

SOLA305S:

Task=<TaskNr> : Response size exceeds max of <bytes> bytes
Source: SOLA Started Task
Explanation: Invalid Content-Length passed in HTTP Header
Response:
Action: Correct the client application.

SOLA306S:

Task=<TaskNr> : Chunk Length Missing in Chunked SOAP Request
Source: SOLA Started Task
Explanation: The Chunk Length was missing in the http message header for a Chunked message.

**Response:****Action:** Client Error. Correct the client application.

SOLA307S:

Task=<TaskNr> : TCP Socket WRITE Failed, ERRNO=<ErrNo>

Source: SOLA Started Task**Explanation:** SOLA's TCPIP socket handler received a TCPIP error on a Write command.**Response:****Action:** TCPIP Error. Refer to the Communications Server IP Sockets Application Programming Interface Guide and Reference, SC31-8788 for explanation of <Errno>.

SOLA308S:

Task=<TaskNr> : TCP Socket SELECT Failed, ERRNO=<ErrNo>

Source: SOLA Started Task**Explanation:** SOLA's TCPIP socket handler received a TCPIP error on a Select command.**Response:****Action:** TCPIP Error. Refer to the Communications Server IP Sockets Application Programming Interface Guide and Reference, SC31-8788 for explanation of <Errno>.

SOLA309S:

Task=<TaskNr> : TCP Socket SELECT Timed out, No Data to Read

Source: SOLA Started Task**Explanation:** SOLA's TCPIP socket handler timed out on a Select command**Response:****Action:** Client error. Retry the request.

SOLA310S:

Task=<TaskNr> : Error During GETMAIN for Response Area , RESP=<Resp>

Source: SOLA Started Task**Explanation:** z/OS was unable to satisfy a SOLA Getmain request.**Response:****Action:** Check the region size for the SOLA Listener region. If the memory allocated is sufficient then contact SOLA Support

SOLA311S:

Task=<TaskNr> : Error During FREEMAIN of Response Area , RESP=<Resp>

Source: SOLA Started Task**Explanation:** z/OS returned an error on a SOLA Freemain request.**Response:****Action:** SOLA Error, contact SOLA Support

SOLA312I:

Task=<TaskNr> : <Trace Msg>

Source: SOLA Started Task

Explanation: SOLA trace message

Response:

Action: None

SOLA JAVA Runtime Errors

Each SOLA error us will contain an error code along with an error message. Each error code provides helpful information regarding the source of the error.

For example, consider error code: APIC01001E-Invalid Request

<u>Position</u>	<u>Meaning</u>
1-3	Prefix (always 'API') common to all error coming from the java runtime.
4	Either 'C' for a client error or 'S' for a server error.
5-6	Class Id. A list of classes follows.
7-9	The error sequence code within the given class.
10	'E' – Error or 'W' – Warning
11-x	This is a general description of the errors category.

SOLA307S:

Source: Task=<TaskNr> : TCP Socket WRITE Failed, ERRNO=<ErrNo>
SOLA Started Task
Explanation: SOLA's TCPIP socket handler received a TCPIP error on a Write command.
Response:
Action: TCPIP Error. Refer to the Communications Server IP Sockets Application Programming Interface Guide and Reference, SC31-8788 for explanation of <Errno>.

SOLA308S:

Source: Task=<TaskNr> : TCP Socket SELECT Failed, ERRNO=<ErrNo>
SOLA Started Task
Explanation: SOLA's TCPIP socket handler received a TCPIP error on a Select command.
Response:
Action: TCPIP Error. Refer to the Communications Server IP Sockets Application Programming Interface Guide and Reference, SC31-8788 for explanation of <Errno>.
